91 Years of Experience.

A New Collection Built on It.

Entra may be a new collection, but the experience behind it began in 1935.

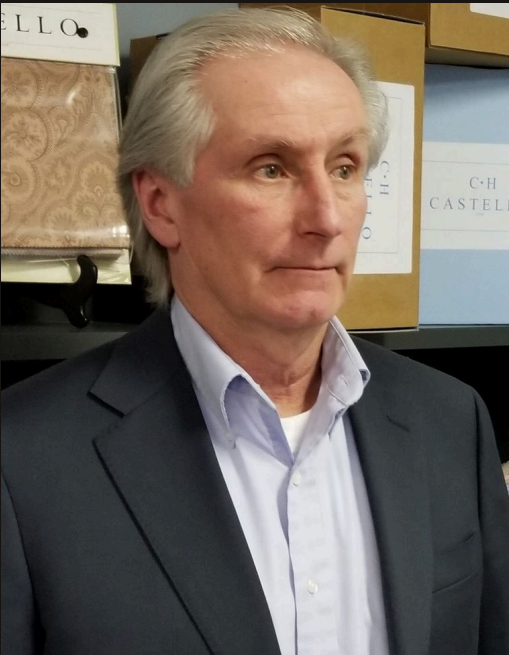

For 91 years and across three generations, the Campbell family has built its reputation on textile knowledge, purposeful craftsmanship and dependable hospitality performance. From William Campbell's early manufacturing work in Montreal to Richard W. Campbell's expansion into international hospitality and R. Taylor Campbell's continued focus on quality and consistency, each generation has carried that standard forward.

Entra is the newest expression of this legacy —thoughtfully developed for today's hospitality environment and supported by nearly a century of experience in the products, performance and service properties depend on.

New in name. Proven by generations.
